CONTENTS

No. 1

U. BONDESSON, B. DANIELSSON and C. LINDBERG: Synthesis and mass spectra of deuterium-labelled ketobemidone and of some potential ketobemidone metabolites	1
D. L. PARSONS and J. J. VALLNER: A new method for the determination of the site binding constant of each species of a partially ionized drug	12
G. HALLSTRÖM, E. ANDERSON and B. LINDEKE: Synthesis and mass spectrometric investigations of metabolites of <i>N</i> -(5-pyrrolidinopent-3-ynyl) succinimide (BL 14)	31
A. K. KOLSTAD and T. NORDGREN: Determination of extraction and dissociation constants of organic and inorganic acids in 1-pentanol	55

No. 2

I. SJÖHOLM: Introduction to the topic of the Symposium	66
S. JACOBSEN and G. SAGER: Plasma proteins binding drugs	67
J. P. TILLEMENT, R. ZINI and S. GLASSON: Binding of some basic drugs to human serum lipoproteins	68
G. WEBER: Energetics and dynamics of binding of ligands to proteins	69
F. ANDREASEN, J. H. CHRISTENSEN and E. B. JENSEN: Thiopentone binding at variable pH and temperature	70
C. F. CHIGNELL: A critical evaluation of the techniques available for measuring drug-protein binding	71
H. KURZ and B. FICHTL: Relevance of drug binding to animal muscle tissue for human muscle binding	72
M. H. BICKEL: Tissue binding of drugs	73
J. WILTING, W. F. van der GIESEN, L. H. M. JANSSEN, M. M. WEIDEMAN, M. OTAGIRI and J. H. PERRIN: The effect of human albumin conformation on the binding of warfarin	74
J. H. PERRIN and G. E. HARDEE: Flow microcalorimetric investigations of drug-albumin interactions	75
I. SJÖHOLM: The specificity of the drug binding sites of human serum albumin	76
W. E. LINDUP and C. J. BOWMER: Effect of albumin concentration on drug binding constants	77
D. J. BIRKETT, S. RAY, G. SUDLOW and J. HAGEDORN: Fluorescent probe studies of albumin binding sites	78
R. BRODERSEN: Competitive binding of bilirubin and drugs to albumin	79

U. WOLLERT, K. H. FEHSKE and W. E. MÜLLER: Location of drug protein binding sites on HSA	80
M. EHRNEBO: Influence of drug binding to blood cells on pharmacokinetics	81
J. C. MUCKLOW: Correlation between the free fraction of drugs in blood and the concentration in CSF, milk and saliva as well as placental transport	82
M. ROWLAND: Pharmacokinetic consequences of drug protein binding	83
J. R. GILLETTE: The effects of reversible binding of drugs to proteins on drug disposition and response	84
C. HSIA: Complementary ligand binding properties of serum albumin and alpha-fetoprotein: Implications in cross-placental transport	85
G. SAGER and S. JACOBSEN: Binding of propranolol to human red blood cells	86
H. EHRSSON, U. LÖNROTH, M. EHRNEBO and S. O. NILSSON: Influence of human albumin binding on the degradation rate of chlorambucil in aqueous solutions	87
E. M. SELLERS, C.A. NARANJO, J. G. ABEL, K. M. PIAFSKY and P. SANDOR: Fatty acids as a source of variation in drug binding	88
O. BORGÅ: Protein binding and therapeutic drug monitoring	89
B. KETTERER and E. TIPPING: Specific binding proteins in the liver: A model showing their probable effects on the intracellular transport and metabolism of lipophiles	90
L. HERNGREN, M. EHRNEBO and L. O. BORÉUS: Plasma protein binding of cloxacillin, flucloxacillin and alprenolol in pregnant women and newborn infants	91
G. LEVY: Clinical implications of interindividual differences in plasma protein binding of drugs	92
B. SILBER, M. LO and S. RIEGELMAN: The influence of heparin administration on the plasma protein binding and disposition of propranolol	94
U. W. WIEGAND and G. LEVY: Effect of heparin administration on plasma protein binding of several drugs and bilirubin in patients with thrombotic disease	95
L. F. GRAM, C. B. KRISTENSEN and P. KRAGH-SØRENSEN: Clinical significance of drug protein binding and free fraction measurements in therapy control	96
G. ALVÁN, O. BORGÅ and L. ISELIUS: Genetic components in plasma protein binding and determinants of propranolol binding	97
J. J. VALLNER and J. G. WASHINGTON: Comparison of the interactions of ten β -adrenergic blockers with human serum albumin, orosomucoid and human plasma	98
K. M. PIAFSKY, A. BUDA, I. MacDONALD, E. M. SELLERS and H. STRAUSS: Clinical significance of drug binding to orosomucoid	99
A. KOBER: Differentiated effects on drug binding in diseases	100
P. K. M. LUNDE, E. PIKE, B. SKUTERUD and D. FREMSTAD: Displacement of drugs from orosomucoid	101
G. R. WILKINSON: Plasma drug binding and liver disease	102
I. ODAR-CEDERLÖF: Drug binding and renal disease	103

No. 3

W. N. ROLFSEN, A. A. OLANIYI, F. SANDBERG and Å. H. KVICK: Muscle-relaxant activity of decussine, a new indole alkaloid of <i>Strychnos decussata</i>	105
I. M. JOHANSSON and G. SCHILL: Extraction of octyl sulfate to 1-pentanol	112
S. BJÖRKMAN, J.-A. KARLSSON, H. SIEVERTSSON, T. LEWANDER and C. Y. BOWERS: Synthesis and lack of biological activity of \lceil Glu-His-Gly, a proposed anorexogenic peptide	130
S. EL-MASRY, M. R. I. SALEH, N. M. GHAZY and M. VUILHORGNE: Isolation and structure elucidation of sesquiterpene lactones from <i>Reichardia tingitana</i> L. Roth. var. <i>orientalis</i> (L.) Asch. et Schweinf	137
H. Y. ABOUL-ENEIN, A. I. JADO and E. A. LOTFI: Reaction of sodium azide with 4-bromogluthethimide — a case of nitrene insertion to C-H bond	143
H. NYQVIST, P. LUNDGREN and I. JANSSEN: Studies on the physical properties of tablets and tablet excipients. Part II. Testing of light stability of tablets	148
H. BUSET and R. R. SCHELINE: Disposition of $[2-^{14}\text{C}]$ flavanone in the rat	157
U. NYMAN: <i>Papaver somniferum</i> L. — Breeding for a modified morphinan alkaloid pattern	166
A. KOBER: Binding of drugs to human serum albumin	167
A. OHLSSON: Studies on the synthesis, metabolism and kinetics of cannabinoids	168

No. 4

R. SANDBERG, K.-E. DOMEIJ, G. STENING, S. SVENSSON, N. WILLMAN and B. ÅKERMAN: N-Aminoalkylsuccinimides as local anaesthetics. Part II. 1,2,3,4-Tetrahydronaphthalene-1-spiro-3'-pyrrolidine-2',5'-diones substituted in the aromatic nucleus	169
R. SANDBERG, K.-E. DOMEIJ, G. STENING, N. WILLMAN and B. ÅKERMAN: N-Aminoalkylsuccinimides as local anaesthetics. Part III. 1,2,3,4-Tetrahydronaphthalene-2-, indane-1-, and indane-2-spiro-3'-pyrrolidine-2',5'-diones	177
R. SANDBERG, C. R. SALAZAR, B. SJÖBERG and B. ÅKERMAN: Synthesis and local anaesthetic properties of the O- and the <i>N</i> -(2-diethylaminoethyl)-derivatives of 2',6'-mandeloxylide	183
A. OHLSSON, S. AGURELL, H. GLATT, P. BENTLEY and F. OESCH: Investigation on the mutagenicity in the Ames test of 1 α ,2 α -epoxyhexahydrocannabinol and its conversion by deactivating enzymes	189
P. BERTSSON: The use of non-correlated log P and (log P) ² values in quantitative structure activity relationships	199
O. T. OLSON: Particle generation from equipment used for the administration of infusion fluids	209

H. NYQVIST, A. BRODIN and L. NILSSON: Precision of a ring shear cell in determining flow properties of pharmaceutical powders	215
Y. KANEO, A. NISHIKAWA and Y. KATO: Effect of free fatty acids on the binding of salicylic acid to bovine serum albumin	224
A. ARBIN: Alkylation of organic acids for gas chromatographic determination	232

No. 5

H. BRINK: Alkylation of alcohols for gas chromatographic analysis by a phase-transfer catalysis technique. Elucidation of reaction mechanism in a one-phase system. Part II	233
K.-E. KARLSSON and P. HARTVIG: Two-phase derivatization of tertiary amines. Part I. A kinetic model for the reaction between <i>N</i> -benzyl-4-phenylpiperidine and isobutyl chloroformate	249
A.-G. DAHLBERG, K.-G. HÖGBERG, B. ÖRTENGREN, D. M. LAKE-BAKAAR, L.-G. LARSSON, S. LINDVALL, B. G. PRING, G. RYDELL and E. SVÄRD: Physicochemical and <i>in vivo</i> properties of various iron-poly (sorbitol-gluconic acid) complexes	262
C. NYSTRÖM and K. MALMQVIST: Studies on direct compression of tablets. Part I. The effect of particle size in mixing finely divided powders with granules	282
L. RONDAHL: Synthetic analogues of nicotine. Part VIII. Synthesis and biological testing of two tetrahydro-5-quinolinamines	288
L. RONDAHL: Synthetic analogues of nicotine. Part IX. Synthesis and biological testing of some piperazine derivatives in regard to nicotine-like activity and anthelmintic effects	292
I. SKÅNBERG: Metabolism of beta-adrenoceptor antagonists, alprenolol and metoprolol in different species. <i>In-vitro</i> and <i>in-vivo</i> correlations	295

No. 6

S. BJÖRKMAN, S. CASTENSSON, D. ISACSSON, J.-A. KARLSSON, H. SIEVERTSSON and C. Y. BOWERS: Synthesis and biological activities of thyroiberin (TRH) analogues with cysteine of cysteine derivatives in position one or two	297
N.-O. AHNFELT and P. HARTVIG: Gas chromatographic analysis of primary and secondary amines after derivatization with chloroformates in buffered aqueous solution	307

A.-M. TIVERT: Extractive alkylation of organic acids: Part III. Determination of alkylation rate constants for substituted phenols as quaternary ammonium ion pairs	319
A. K. KOLSTAD and T. NORDGREN: Kinetic studies on ion-pair extraction. Part VI. Extraction of sulfonic acids to 1-pentanol. The effect of dissociation in the organic phase	327
W. ROLFSEN, A.-M. BRESKY, M. ANDERSSON and J. STRÖMBOM: Isolation, synthesis and pharmacological activity of strychnocarpine, a new β -carboline alkaloid from <i>Strychnos elaeocarpa</i>	333
Y. AYNEHCHI, M. H. SALEHI SORMAGHI and K. H. FARROHI: Screening of Iranian plants for antimicrobial activity	341
L. RONDAHL: Synthetic analogues of nicotine. Part X. Synthesis and biological testing of some <i>N</i> -(arylmethyl)-azacycloalkanes	347
S. BJÖRKMAN: Neurotropic and pituitary effects of melanostatin (MIF), thyroli-berin (TRH) and structurally related peptides	352
